Anne McCaffrey : Cooking Out Of This World before purchasing it in order to gage whether or not it would be worth my time, and all praised Cooking Out Of This World:

Not much exotic in it; but cool none-the-less.3 of 3 people found the following review helpful. Sci-Fi Geek HeavenBy nmaThe most awesome cook book from the best author EVER! Fun CookingBy Hans van der BoomNot only do you get (sometimes old fashioned, and that is great!) nice recipes by (famous) authors, you get to make them too! Cooking oOut Of This World is a classic and it's a good thing it is available in this nice and affordable paperback. For all those fond of science fiction authors and cooking, a must!

Anne McCaffrey's cookbook, featuring real (you can cook them) recipes created by science fiction and fantasy writers such as Harlan Ellison, Ursula K. Le Guin, Avram Davidson and of course Anne McCaffrey herself. Mixed in with the recipes are stories and anecdotes about how they were created - some longer than the recipes!

From the PublisherThis book is a new edition of the 1973 classic SF cookbook edited by Anne McCaffrey. It corrects numerous typographical errors, revises several recipes (including Harlan Ellison's), and is a sturdy trade paperback printed on acid-free paper.
