the Street chapter....she was not spayed.Wondering how Dennis and Katrina will cope when Genevieve goes to the Rainbow Bridge.....I know my animals I loved so will be there for me.If G was bred.....did they keep one? How could they ever give any up?I have 2 Papillons.....they are interesting dogs. Got them at a rescue shelter. Female spayed. I know I would have a houseful of Paps if not. Male neutered. Very different in personalities.Male much more spaniel-like.If anyone knows how Genevieve is, post it, please.1 of 1 people found the following review helpful. More  
Memoirs of a Papillion: Diary of a Mad DogBy SamiamI'm glad I bought this book as a paperback for I don't think it's a keeper. I lost so much interest in the story that I still haven't finished reading it. It just drags and is not near as light as the first one written. Analogy:No name makes it big with a sleeper, low budget movie and becomes a household name overnight.(Crowd roar). Next move, to do it again with a sequel. And we all know how that turns out. Sorry, this book was written with that exact scenario in mind so if you just have to have this book, find it at the second hand store for a dollar or let this site know that you have interest in taking it off my hands.0 of 0 people found the following review helpful. Not as good as the FirstBy BeaLike other reviewers here I didn't think this book was as good as the first one. The author took a bit of a left turn and Genevieve wasn't up to her old antics quite as often. I did read it and I did finish it but if you're looking for a really good pap book then I would stick with the first one and take a pass on the second one.

More barktations from Genevieve! Perk up your ears and get to the nearest fire hydrant - canine star Genevieve is back with a brand-new collection of observations about poor, dumb humans. Following up on her best-selling classic, "Memoirs of a Papillon: The Canine Guide to Living with Humans without Going Mad," Genevieve unleashes a scathing analysis of human culture that will have sociologists all over the world looking for new jobs.

"Genevieve has been stirring up controversy around the world with her biting commentary on life with humans." -- The Boston Globe, February, 2002About the AuthorDennis Fried, who translates Genevieve's books from doggerel into English, is also the author of his own book, "A Tongue in the Sink: The Harrowing Adventures of a Baby Boomer Childhood."
