Bruce Nash : The sports hall of shame before purchasing it in order to gage whether or not it would be worth my time, and all praised The sports hall of shame:

From Publishers WeeklyThe authors of four Hall of Shame books that highlight strange and embarrassing moments in baseball and football, Nash and Zullo now turn their sights on a variety of other sports. From the world of golf, they recount the time during the 1968 Masters when Tommy Aaron erroneously added a stroke to partner Roberto de Vincenzo's scorecard, resulting in de Vincenzo's loss of the tournament to Bob Goalby. In racing, they note Kevin Cogan's dubious distinction of having caused a four-car crash at the 1982 Indianapolis 500 on the relatively slow 80 mph pace lap. They reach back to 1853 to tell the story of heavyweight boxer "Yankee" Sullivan, who was ruled the loser in a bout for failing to answer the call to fightbecause he was busy punching his opponent's second. And they recall the snooze that lineswoman Dorothy Cavis-Brown took during a match at Wimbledon in 1964, to the crowd's amusement. The authors' energetic style and humorous anecdotes will make this a popular title for jocks of all stripes. Copyright 1987 Reed Business Information, Inc.
