Michael Teitelbaum : The Very Hungry Zombie: A Parody before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Very Hungry Zombie: A Parody:

2 of 2 people found the following review helpful. He used to love Eric Carle as a little kid By Lovely Reader My 10 year old son wanted this book. He used to love Eric Carle as a little kid. He loved this book. The illustrations are spot on when it comes to Eric Carle. The story is super cute for a kid who loves zombies like he does. Same exact story line as The Hungry Caterpillar, the caterpillar is replaced with a zombie. The zombie rises out of his grave and is hungry, then eats through astronauts, football players, clowns, etc.... Then he eats through a ton of body parts leaving him feeling badly. So he then eats through some brains. Goes back in his grave, then the havoc begins. All the people he ate are now zombies. This is not a story for children under the age of 8. My son is 10 and loves zombies, he thought this story was super funny. I did too! Cute book for zombie lovers. 10 of 11 people found the following review helpful. ZOOMBBIES! By Chelsey I have a zombie obsessed three year old. Not sure how that happened but either way when Christmas came along he asked for "Zombie Toys"...with limited options especially that are still somewhat appropriate for a young child I stumbled across this book. I was a bit wary at first that it may be inappropriate but for our family I found that it was fine and quite cute. He was always a fan of the Hungry Caterpillar so this was a fun take on that book with a twist of his zombie obsession as well. I would definitely recommend this book for anyone, it really is a fun cute read for all ages who like a bit of spook! 0 of 0 people found the following review helpful. Maybe not the best for little kids By Patricia Kandle I bought this as a first father's day gift for my husband. When our son was about two, he decided this was his favorite book. He liked the rhyming and the wholes in the pages. I liked it because it was harder for him to destroy. That being said, it's really not a kids book. It's pretty gruesome... in a silly way...

In this dead-on parody of a children's classic, a very hungry zombie eats his way through a variety of his favorite foods, including clowns, astronauts, rock stars, fingers, and brains. With vivid, playful art and amusing text, The Very Hungry Zombie will appeal to picture-book lovers of all ages. Adults will catch its slightly demented humor. Older

kids who grew up on classic board books will love the fun of the parody. And because the art leans toward humor rather than truly graphic grossness, a new generation of little ones may just grow up loving a creepy zombie whose gluttony earns him a bellyache. Beware! This equal opportunity ghoulish gourmand would just love to have you for dinner!

About the Author Michael Teitelbaum is the author of more 150 children's books including young adult and middle-grade novels, tie-in novelizations, and picture books as varied as Spider-Man, Superman, Avatar, Teenage Mutant Ninja Turtles, Smallville, X-Men, Batman, Transformers, Garfield, and Kermit the Frog.
