Some of the stories make you shake your head in disbelief, but they are what cops face every day so you don't have to. Real and gritty as it gets. Great writing style. world most people can not even imagine. Witty and entertaining, an emotional rollercoaster ride through life on the meanest streets in America. Human drama at it's finest, sad, funny, compassionate, cruel ... I loved this book, and will read it again and again. Thanks lady in Blue! 1 of 1 people found the following review helpful. Excellent By HvyB Although I'm not involved in law enforcement, I can speak from experience about the people and neighborhoods described. The lady is not making this stuff up. To me her stories ring true, and the sometimes light-hearted way she describes tragedy is necessary to keep ones sanity. If she walked around crying all the time the work could not be done. I think she is laughing at the whole world, not the crying children.

I spent 23 years patrolling the streets of some of the toughest, crime infested neighborhoods in the country. Always telling myself, "I have seen it all." Yet so often when that next call comes in and we roll up to the scene, I am amazed at what extent the human race will put his fellow man through. Ride with me as we patrol those mean streets. Discover how they can be so cruel, often compassionate, incredibly funny but always an adventure.
