The only reason I didn't write a review sooner was because I had this book in my face. (I was able to read it by sitting outside and telling my son we would get ice cream if he could catch a squirrel.) Speaking of face, toddlerhood slapped us in the face way before I expected it. 15 months. I started off as one of THOSE moms. Crunchy granola no tv or electronics organic gluten free "not my sweet angel" moms. Now my toddler is a little S\$#% half the time (remember, we aren't full blown toddler yet.) We

have literally worn out one DVD of Frozen and my husband was told not to bother coming home from work without a new one. As I write this, I stink. Like really stink. I can't recall my last shower. My kid sits on my lap while I poop and my house is covered with a white film, being a combo of yogurt and lotion, which are interchangeable to him. My meals consists of whatever he didn't eat, which is often enough that I know I will at least get one hot rejected meal a day. And I secretly despise my mother just a little bit for being smug that my son is always the perfect angel at her house. (Not that he's not a sweetheart at mine, but it's a delicate walk that can change in a split second). This book is funny as hell. If you have a toddler, this book is hilarious. I came close to peeing my pants. (If you are a new mom, you probably will pee your pants. Totally normal.) Because it's so true. Every sentence. If you are or have a first time pregnant friend, this should be purchased for a glimpse into the future and a fantastic non stop laugh. 94 of 97 people found the following review helpful. That's actually what they call themselves, like it's cool or something. Buy two and upset an essential oil peddling mom today. Namaste. 0 of 0 people found the following review helpful. This book made me laugh until I cried. Not for people easily offended or without a sense of humor. By ElleThis book is hilarious! If you have a sense of humor and are the parent of a toddler then this book is for you. I laughed until tears came down my face at some of the descriptions of toddler/parent behavior/interactions. I could see some "holier than thou" parents being opposed to this book due to the language alone but my friends and I find it hilarious! This would be a great gift, especially for the parent of a second/third/etc child!

Toddler a\*\*holery is a normal part of human development—not unlike puberty, except this stage involves throwing food on the floor and taking swings at people who pay your way in life. For parents of toddlers, it's a "you better laugh so you don't cry" period. Bunmi Laditan's hilarious, satirical guide to toddlerhood offers parents instant (and very welcome) comic relief—along with the very good news that "It's Not Your Fault." Chapters cover the cost of raising a toddler, feeding your toddler, potty-training, tantrums, how to manage the holidays, and "how not to die inside." Parents will see themselves in the very funny sections on taking your toddler to restaurants ("One parent will spend their time walking your toddler around the restaurant and outside like a cocker spaniel, while the other, luckier parent will eat alone."), Things You Thought You'd Never Say That You Now Say As a Parent of a Toddler ("I can tell you're pooping because your eyes are watering."), and how to order pizza ("Spend \$40 on pizza delivery. Listen to your toddler cry for 30 minutes about how the pizza is all wrong. Watch your toddler take a small bite of crust. Google 'can anger give you a heart attack?' Start the bedtime routine."). Laditan's wildly funny voice has attracted hundreds of thousands of fans of Honest Toddler on social media; here she speaks parent-to-tired-parent, easing the pains and challenges of raising toddlers with a hefty dose of adult humor and wit.
