Paul Bellow : Trump Drumpf: A Political Satire Novel before purchasing it in order to gage whether or not it would be worth my time, and all praised Trump Drumpf: A Political Satire Novel:

5 of 6 people found the following review helpful. I'd claim it's not very sophisticated - but even though the jokes are kind of easy (Vice-President FacebookBy CustomerWow, this is a crazy ride!Paul Bellow has made our nightmares come true, and given us an America ruled by a two-term Trump presidency!Drumpf Trump is a very broad-strokes comedy envisioning America under President Trump. I'd claim it's not very sophisticated - but even though the jokes

are kind of easy (Vice-President Facebook, for example) there's a surprisingly deep level of satire beneath them. The book discusses some of the very real horrors that a Trump-type presidency could mean for America; and it ain't pretty. For fans of Daily Show-type humor with a Tosh 2.0 slice of dark comedy, this is a great read. Thoroughly recommended. 6 of 7 people found the following review helpful. Extremely funny! By Indyrat Extremely funny! Great satire not just about Trump but corporations, politics in general and ultimately about all of us. Almost could see some things coming to fruition. Set back and enjoy this crazy strange trip. 7 of 9 people found the following review helpful. Read it quickly before the fresh jokes in the book go stale! By Mladen The novel tries to be both a political comedy and an SF novel, but most of all I see it as an honest warning by the author about what might happen if an idiot is elected to rule the US. The problem is that a warning will not help. Idiots and tyrants are usually elected (or brought to power in another way) by people who are not recognizing an idiot and/or tyrant beforehand and those people will not read this book. Our problem is not really the quality of candidates but the quality of voters and I'm afraid the situation is getting even worse. As a fun read, the book is great. The author needs better proofreaders before publishing (I volunteer for any of the future novels!) but it is not a big deal.

Whether you are for or against Trump becoming President of the United States, you NEED to read this book at least once. You will laugh. You will cry. You may realize... So Much Can Change in Seven Short Years... President Trump and Vice President Facebook scramble in 2023 to hang onto power. Both the man and the corporation have different ideas on how to cling onto control. Meanwhile, in Chinese Detroit, Buckeye Jones, one of the last remaining human journalists, learns the deal President Trump made with China is not a good one by any means. As the world reels from the chaos caused by seven years of lunacy, the survival of humankind depends on an unlikely cast of characters and corporations.
